

## PECB Certified ISO/TS 29001 Foundation

Become acquainted with the best practices of Quality Management Systems for petroleum, petrochemical and natural gas industries, sector-specific for product and service supply organizations based on ISO/TS 29001

### Why should you attend?

ISO/TS 29001 Foundation training enables you to learn the basic elements to implement and manage a Quality Management System for petroleum, petrochemical and natural gas industries, sector-specific for product and service supply organizations as specified in ISO/TS 29001. During this training course, you will be able to understand the different modules of an OGQMS, including OGQMS policy, procedures, performance measurements, management commitment, internal audit, management review and continual improvement.

After completing this course, you can sit for the exam and apply for the “PECB Certified ISO/TS 29001 Foundation” credential. A PECB Foundation Certificate shows that you have understood the fundamental methodologies, requirements and management approach.
